

# Potholes: The problem and the **solution**

## 491

Average number of compensation claims received per local authority this year as a direct result of potholes (England & Wales)

## £8.1m

An average amount paid out in compensation each year to UK road users

Traditional methods of repair can cost up to

## £60

PER POTHOLE

## 4,000

cars a month are seriously damaged by potholes. This number fell during lockdown but is now back up to 2,500

# £11.1 billion

worth of pothole repairs needed in the UK

In 2018 the Government set aside an extra

## £420m

on top of the existing £300 million budget. Much of this money has gone on patching rather than long-term repairs

Between 2009 and 2018

## 24

cyclists were killed as a direct result of hitting potholes or road surface defects

### THE SOLUTION

CUT ■ CROP ■ CLEAN

WITH ONE MACHINE

One pothole can be permanently repaired in...

and costs just

## £30

PRODUCTIVITY UP  
COST DOWN
